

METCO ROOF PRIVATE LIMITED

About METCO

Metco Roof Private Limited established in the year 2002, is one of the leading manufacturers of profiled metal roofing sheets with a variety of variants and accessories to suit the ever expanding needs of the clients and well acclaimed integrated turnkey providers of Pre Engineered Building systems.

Metco offers profiled metal roofing sheets in three variants suitable for industrial, commercial and residential applications which are well acquainted in the roofing industry as **MET-RIB™**, **MET-FLEX™** and **MET-CLAY™** brands, manufactured from raw materials sourced from reputed international and Indian organizations.

MET-CRIMP

Metco Roof, in an effort to synchronize the requirement of crimp curves to suit our existing metal roofing profiles (**MET-RIB™** & **MET-FLEX™**) has made elaborate facilities in terms of sophisticated high definition machinery, which are CNC controlled, to manufacture all forms of crimp curves that are required for the industry.

Crimp curves, apart from enhancing the technical parameters for the metal buildings, also has a greater role in increasing the aesthetic appeal.

MET – CRIMPS are manufactured to accommodate all forms of crimping requirements that are required for our Pre Engineered buildings and also supplied as spare components for other consumers who are engaged in the industry.

Product Range:

- Regular Crimp
